Outdoor Clothing, Lake District

**PUBLIC AREAS**

intu Derby

## ● **FREE PAYBACK EVALUATION**

Where existing lighting is upgraded, we provide you with a time scaled return on investment report, So you can show your client the time it is going to take for the amount of money saved in energy to equal the amount spent on the investment.

## ● **FREE QUOTATION**

A no obligation, no hidden cost, competitive quotation.

Finance packages.

Advise on end user benefits and incentives, ECA etc.

## **Why Lighting Design?**

The tendency is to over spec so you know it is going to be bright enough, then maybe lose the project on price, but with a lighting design you can prove to the end client that the lighting will achieve the optimum light levels for the given project yet reducing the number of fittings required by selecting the correct fitting with the right lumen output therefore minimising costs means winning those projects, better by design, and free!
