CASAMBI'S KEY FEATURES

About INTULUX

Intulux's Casambi-powered lighting solutions offer seamless, energy-efficient lighting control.

With remote management, scheduling, and energy tracking, these solutions enhance efficiency, adaptability, and cost savings.

Independent lighting control

Adjust brightness or colour for individual lights without affecting others, offering complete flexibility.

No additional wiring necessary

No extra wiring or structural changes—simple, cost-effective installation.

Emergency reporting

Remote, real-time updates and maintenance alerts ensure compliance and safety.

Infinitely customizable

Easily create or adjust lighting zones for any layout or mood.

CASAMBI FOR INSTALLERS

*Effortless Installation and
Maintenance-free Experience*

Easy to Install

Casambi offers installers a flexible, easy-to-deploy wireless lighting control system that streamlines setup and reduces installation time.

With no complex wiring required, you can quickly integrate lighting control for any space.

Simple to Use

Casambi's intuitive app-based setup makes ongoing management and adjustments simple, providing installers with a powerful tool to meet diverse project requirements and ensure long-term satisfaction.

Quick to Configure

Quick Setup

Simplifies installation with no additional wiring.

Time-Saving

Configure settings remotely through the Casambi app.

Flexible Design

Install lighting control across spaces without impacting existing layouts.

Reliable System

Allows updates and adjustments without reprogramming.

CASAMBI FOR FM

*Streamline Facility Lighting with
Wireless Control and Real-Time
Insights*

All in One Lighting Control System

Unlock seamless control and energy efficiency with Casambi-powered lighting solutions for facilities management professionals.

Simplify your lighting management, enhance sustainability, and gain full control with Casambi.

Lighting like Clockwork

Remote Access

Adjust, schedule, and troubleshoot the lighting system from anywhere, minimizing maintenance trips.

Secure and Robust

Casambi's system is designed for stability, so you can trust it to run smoothly day after day.

Easy Upgrades

Add new devices or adjust settings without affecting the entire system, making expansion seamless.

Enhanced Control

Oversee performance, prevent outages, and ensure energy efficiency with Casambi's monitoring features

Lights on Autopilot

With features like automated scheduling, energy tracking, and remote control, you can reduce operational costs while improving comfort and performance for occupants.

CASAMBI FOR END USERS

*Effortless Control and Maintenance
at Your Fingertips*

Lighting Control Made Easy

For end users, Casambi offers an easy-to-manage, wireless lighting control system that simplifies ongoing maintenance.

Futureproof Solutions

Casambi's scalable design means facilitators can easily expand or modify the system as needed, making it a flexible, cost-effective solution for long-term management

Smart Control, Seamless Operation

Remote Monitoring

Monitor system performance remotely and address issues quickly without being on-site

Automated Scheduling

Set and automate lighting schedules to optimize energy efficiency, ensuring the system runs according to preset times

Scalable System

Casambi's flexible design allows easy expansion to meet evolving facility needs

Emergency Reporting

Remotely track the status of your emergency lighting, ensuring compliance with minimal effort
